NT Government  
Alcohol Review Panel

Re: NT Government Alcohol Review

As a new Resort within the Northern Territory we welcome the NT Governments alcohol policy and legislation review.

We must point out the huge start-up costs associated with the build plus a possible re-brand that may happen sometime in the future.

As a new Resort we support the AHA/TAA opposition to annual liquor licencing or risk based licensing fees. We believe that this would put undue stress on a new facility like ours as we try to compete in the established Darwin market.

At Club Tropical Resort we do not offer mini-bars and only have a small restaurant/bar on-site, so we cannot be compared to a full service hotel. You will find many variances in what hotels offer and to have one model for charging would be an injustice.

I look forward to hearing the progress on this issue and look forward to Club Tropical Resort adding additional. And different, accommodation to the tourism industry in the Northern Territory.

Kind regards

Ian Solomon
